

Hello, Enigma World Code Group friends,

It is time for November's Enigma history message—encrypted, of course! We have to keep our skills sharp! We are adding new members all the time. We are at about 200 now, give or take a few. Great participation! Our new Forum section is receiving hundreds of hits. Remember, you can ask questions on the Forum, too. With all the truly expert minds we have out there, someone will know the answer to just about any Enigma question you may have.

This month's Enigma history message is rather long in itself, and it will be continued over to December's message, too. Don't forget about the "Auto Typing" feature available on the drop-down menu at the upper-right corner of the Enigma machine page. It will save you hours when decrypting messages! Here we go:

Here is our challenge quotation for this month. Can you unscramble the letters of the key words? Can you figure-out the missing letter? The quotation and the author's name read from left to right. If you can't figure it out after really trying hard, scroll down to find the answer.

If you are in the market for a super-challenge, our good friend and EWCG member George Lasry has a good one for you this month. Just click on the link. Good luck. If I know George, you will need it!
